ABOUT THE INSTITUTE

The International Institute of Migration and Development (IIMAD) is a Centre for academic research devoted to all aspects of international migration. The institute regularly conducts a series of seminars, invited talks, training programs, national conferences and also extends technical assistance to the researchers of other disciplines. It provides consultation to various research projects conducted by Government and non-government agencies.

ABOUT THE TRAINING PROGRAM

As part of a new initiative to expand research training for junior investigators engaged in research activities, we are conducting a series of research methods and data analysis based training programs. This training program introduces research scholars/ faculty members to key concepts, terminology and techniques in Research Methodology and Data Analysis. It will provide participants with practical experience with a variety of analysis tools to help them to make decisions appropriate to the research situation.
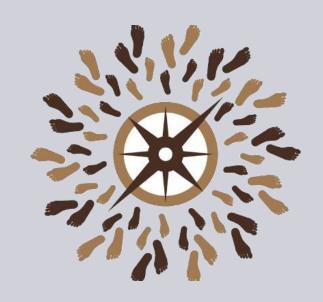

ABOUT IBM SPSS® Statistics

The IBM SPSS® software platform offers advanced statistical analysis, a vast library of machine-learning algorithms, text analysis, open-source extensibility, integration with big data, and seamless deployment into applications. its ease of use, flexibility, and scalability make IBM SPSS accessible to users with all skill levels and outfits projects of all skill levels and outfits projects of all sizes and complexity to help you and your organization find new opportunities, improve efficiency and minimize risk.

TOPICS TO BE COVERED

- Exposing the software
- Understanding and building the dataset and its structure
- Data handling techniques
- File and variable management
- Descriptive & Hypothesis Testing
- Parametric and Non-Parametric Tests
- Correlation, Regression & Logistic Regression
- Handling Large Scale Datasets
